

EXPERIENCE A TRUE FULL-SERVICE SOLUTION

LEASING & RENTALS WITH CLEAR PRICING & PRIORITY SERVICE

Young Leasing offers a comprehensive, convenient, and customer-focused approach to commercial truck leasing and rental services.

Leasing: We offer transparent pricing and help you spec and upfit the right truck for your needs, backed by prioritized in-house maintenance to minimize downtime. Replacement vehicles may be available for certain out-of-service repair events.

Rental: Get clean, late-model trucks with straightforward pricing and a quick, no-hassle pickup and drop-off process—no surprises, no waiting.

MULTIPLE BRANDS OF CLASS 6, 7, & 8 LOW CAB FORWARD, DAY CAB, AND SLEEPER TRUCKS

LICENSING & TAX PROCESSING
We handle licensing and highway use taxes.

ACCESS TO MULTIPLE BRANDS
Choose from a variety of trusted truck brands.

RELIABLE REPLACEMENT VEHICLES
Stay on the road with a substitute truck during maintenance or repairs. Some restrictions apply.

ROADSIDE ASSISTANCE
Coordination of emergency breakdowns.

LEASE VS BUY

Lease or Buy Your Next Truck?

When it's time to add a truck to your fleet, one of the biggest decisions you'll face is whether to lease or buy. Both options offer advantages depending on your business goals, cash flow, and how long you plan to keep the truck.

Leasing can provide predictable monthly costs and flexibility, while purchasing allows you to build long-term ownership value.

To help simplify the decision, Young Trucks has created a Lease vs. Buy Guides with real truck comparisons and key considerations.

Download the guides at:
YoungTrucks.com/LeaseVsBuy

Or talk with a Young Trucks team member for a personalized lease vs. buy analysis tailored to your business.

HELPING THOSE WHO HELP OUR COMMUNITIES - WITH EXCLUSIVE PARTS SAVINGS

MOVING UPDATE

OPENING THIS MAY

OUR NEW FACILITY IS ALMOST HERE

The countdown is on—our new facility is set to open to the public this May.

As we get closer to the big day, the excitement continues to build. The exterior is nearly complete with signage now installed, while inside, fresh paint and final finishes are bringing the space to life. Every detail is coming together to create a clean, modern environment built for the future.

One of the highlights is the shop, which is looking pristine and ready for work. Featuring state-of-the-art lift and crane systems, this space is designed to support efficiency, safety, and top-quality service from day one.

We're looking forward to welcoming our customers, employees, and the community into this new facility very soon. More details will be shared as we approach opening day—stay tuned!

GET TO KNOW OUR TEAM

MEET CRAIG BILLINGS, Fleet Manager | Young Leasing

Young Trucks is excited to welcome Craig Billings as the new Fleet Manager at Young Leasing. In this role, Craig is responsible for overseeing the performance, maintenance, and readiness of our lease and rental fleet to ensure customers receive reliable equipment and dependable service.

We caught up with Craig to learn more about his background and what he's looking forward to in his new role.

Q: Tell us a little about your background.

Craig: I spent more than 20 years in the U.S. Army working in logistics, vehicle maintenance, and operations leadership. During that time, I managed teams responsible for maintaining and repairing fleets of vehicles while ensuring everything stayed mission-ready. After my military career, I transitioned into the commercial trucking industry, most recently serving as a Parts Manager at a truck dealership where I oversaw inventory, sales, and parts operations.

Q: What attracted you to the Leasing Fleet Manager role at Young Trucks?

Craig: I've always enjoyed working in environments where equipment reliability and teamwork are critical. Leasing operations require strong coordination between maintenance, parts, and customer service, which aligns perfectly with my background. Young Trucks has a great reputation in the industry, and I'm excited to be part of a team focused on delivering dependable transportation solutions.

Q: What does your role involve day to day?

Craig: My focus is on making sure our lease and rental fleet is safe, reliable, and ready when customers need it. That means coordinating maintenance, monitoring fleet performance, and working closely with our service and parts teams. At the end of the day, uptime is everything for our customers, so we work hard to ensure the equipment they rely on is always operating at its best.

Q: What types of customers benefit most from leasing?

Craig: Leasing can be a great option for companies that want predictable operating costs and reliable equipment without the long-term commitment of owning trucks. Many fleet customers appreciate having newer equipment, scheduled maintenance, and support from our team so they can focus on running their business. It's especially helpful for companies that want to scale their fleet up or down as their operations change.

Q: What should a company consider if they're thinking about leasing trucks?

Craig: One of the biggest things to consider is how important uptime and cost predictability are to your operation. Leasing programs often include maintenance planning and fleet support, which can help reduce unexpected downtime and expenses. We work closely with customers to understand their operation and recommend a program that fits their routes, mileage, and service needs.

Q: What's something people might not know about you?

Craig: I'm currently working toward a Bachelor's degree in Business Management, and I enjoy continuing to learn and grow professionally. I've always believed that strong leadership comes from constantly improving yourself and helping the people around you succeed.
